Friday, April 13, 2012, Davie (Ft. Lauderdale), FL

The 2012 Sixth Annual Best Practices Conference (sponsored by the South Florida Chapter of ASPA and Nova Southeastern University) will provide a forum for practitioners, academics, and students to learn about best practices in public service. The conference theme is *Lessons from the Past, Plans for the Future*. Proposals for panel presentations are solicited that address this conference theme with a focus on: Nonprofit Operations; Unions in an Economic Downturn, Private Sector Best Practices; Impediments to Innovation; Social Media and Public Service; Professional Development; the Many Faces of Public Service; and Civic Engagement.

We would like to present "best practices" that will stimulate discussion and provide value to conference participants. Papers presented elsewhere that relate to the topics listed above are encouraged as well.
